25X1A

This contract calls for the basic comparator to be built by	25X1A
and the electric readout subcontracted to	25X1A
Recent inquiries from	25X1A
indicate they have begun working on the readout design but do	20/(1/
not fully understand the requirements. Extensive data has been furnished	3
them but this is a field they have not worked in before. Therefore,	
performance is considered barely acceptable. Performance by the	2
is Highly Satisfactory. However, I feel they require	
improvement in their coordination of this project. Personal contact with	ba.
designers may be necessary to further clarify and check	the
